

**VILLAGE AT LEDGE STONE  
PROPERTY OWNERS ASSOCIATION  
Resident Vehicular Gate Access via TxTag**

Residents of the Village at Ledge Stone may choose to use a TxTag issued by the Texas Department of Transportation to automatically enter through the vehicular gate at the entrance. TxTags can be purchased at <http://www.txtag.org>. Once the TxTag is ordered by the resident, normal delivery time via the US Postal Service is three days. When it is received, please supply the following information to the Village at Ledge Stone POA ("VLSPOA") and the TxTag will be activated in the vehicular gate's computer system thus allowing automatic ingress to the community. If you do not supply the VLSPOA with this form, the TxTag will not operate at the vehicular gate.

If you purchase a new vehicle you must order a new TxTag and once you receive the TxTag in the mail, complete the form below and forward to the VLSPOA for activation in the vehicular gate.

**Please make sure the installation of the TxTag is on the driver's side of the rearview mirror. The placement is more precise than the TxTag instructions issued by TxTag. It must be permanently affixed to the vehicle to function correctly. Proper installation instructions are attached.**
